Graphic Design: Interactive II – Spring 2016

Project 3: Portfolio Website
Due Date: Friday, May 6 at 9:00 pm Mountain Time

Project Description

You are going to develop a personal portfolio website to show off your design and web programming skills. Each page of your website will need your name (or logo) and navigation to other pages on the website. The website needs to be responsive.

You will need to use the Bootstrap grid system on your website. An Illustrator template is available in Github for you to use when designing your website. I will need to approve your design files before you begin programming your website.

The website will need to have the following pages:

Homepage / Work Page

The homepage will feature a grid of design projects. Each design project image will link to the project detail page for that project. At least 9 design projects should appear on your website.

Suggestions

- Backstretch
- Animate.css
- Google Web Fonts

Project Detail Page

Each design project detail page will include multiple images for the project, and a description of the project. There should be "next" and "previous" links for viewing other project detail pages.

Suggestions

- Fancybox
- Bootstrap Carousel
- Slick - http://kenwheeler.github.io/slick/

Resume

The resume page will display your resume in HTML format. Proper heading, paragraph, and unordered list tags must be used.

Contact

This page should include information about how to contact you.

Grading

You will be graded on the design of your website, as well as the functionality of the website. The grading focus of this project will be on:

- Using appropriate HTML tags for your content.
- Using CSS to style HTML content.
- Cleanliness and organization of HTML and CSS, especially code indentation.
- Making sure all of your internal links work.
- Making sure your website looks great in all browser viewport sizes.
- Effort made into making the website look great and function well for users.

Your project must be uploaded to your UTEP web hosting space by Friday, May 6 at 9:00 pm Mountain Time.
